- (2) A firearm is readily modifiable to receive a detachable magazine if it has a device that prevents the magazine from being released but allows the firearm to accept a detachable magazine when the device is removed, reversed, or disengaged, without alterations to the magazine well.
- (3) A firearm is not readily modifiable to receive a detachable magazine if, for example:
  - (A) it does not have a magazine well;
  - (B) the magazine is fixed to the receiver by a continuous ribbon of welding around the perimeter of the magazine well, or by multiple ribbons of welding that are each at least one half inch in length;
  - (C) the magazine is fixed to the receiver with a rivet (or other irreversible locking device) that is driven through the magazine well and fixed in place with epoxy; or
